Testimonial / 过往讲师感言

“

You get to meet people working in a wide range of roles & industries. They are highly artistic designers but also logical problem solvers, but what we all have in common is that we want to build great products through better design. ”

Brandon Owens

Digital Product & Marketing Consultant

“

In a city like Shanghai where everyone is busy and spread out, a monthly event like this helps you remember that there is a community of great people working in design. I've enjoyed a lot sharing and listening to other works. ”

Simone Rebaudengo

Senior interaction designer at Frog

“

I've always had a great time at the Shanghai UI/UX events, each one has had some great speakers in cool venues across Shanghai. It's also lots of fun just chatting with the attendees, since such a rich and varied group of people get involved. ”

Mark Parnell

Lead UX Designer at EF Labs
